2017/1 New OG0-093 Exam Questions Updated!Free Instant Download OG0-093 Exam Dumps(PDF & VCE) 297Q&As from [www.Braindump2go.com](#) **Today! 100% Real Exam Questions! 100% Exam Pass Guaranteed!**1.|2017/1 New OG0-093 Exam Dumps(PDF & VCE) 297Q&As Download:<http://www.braindump2go.com/og0-093.html> 2.|2017/1 New OG0-093 Exam Questions & Answers:https://1drv.ms/f/s!AvI7wzKf6QBjgX2I6oKN_r5Ek-NY QUESTION 1Which of the following TOGAF components was created to enable architects to design architectures addressing Boundary less Information Flow? A. The Architecture RepositoryB. The Enterprise ContinuumC. The Integrated Information Infrastructure ModelD. The TOGAF Technical Reference Model Answer: C QUESTION 2Which of the following best describes the TOGAF Technical Reference Model? A. It is a detailed data model that can be tailored to specific industriesB. It is an example of a Common Systems ArchitectureC. It is a fundamental architecture upon which more specific architectures can be basedD. It is a model of application components and application services software, including brokering applications Answer: C QUESTION 3Which one of the following statements about the structure of the TOGAF 9 document is true? A. Part I, the Enterprise Continuum, describes a model for structuring a virtual repositoryB. Part II, the Architecture Development Method, describes the definitions of terms used in TOGAF, and the changes between versions of TOGAFC. Part III, Tools and Support, describes a collection of guidelines and techniques used in the other parts of TOGAFD. Part VI, TOGAF Reference Models, includes a model for release management of the TOGAF specificationE. Part VII, the Architecture Capability Framework, describes processes and skills to establish an enterprise function Answer: E QUESTION 4Which phase of the ADM ensures that implementation projects conform to the defined architecture? A. Requirements ManagementB. Phase DC. Phase FD. Phase GE. Phase H Answer: D QUESTION 5Complete the sentence. The Requirements Management Phase _____. A. addresses and resolves requirements between ADM phasesB. is a central process that prioritizes requirements for all ADM phasesC. is used to dispose of resolved requirements for all ADM phasesD. generates new requirements and passes them to all ADM phasesE. stores requirements and manages their flow into relevant ADM phases Answer: E QUESTION 6Which one of the following is an objective of the Preliminary Phase of the ADM? A. To define the Baseline Architecture for this cycle of the ADMB. To define the application systems for the Target ArchitectureC. To define the framework and methodologies to be usedD. To define the relevant stakeholders and their concernsE. To define and prioritise work packages Answer: C QUESTION 7According to TOGAF, when creating views for a particular architecture, what is the recommended first step? A. Design a viewpoint to address all stakeholder concernsB. Develop views for the target architecture firstC. Ensure completeness of the architectureD. Refer to existing libraries of viewpoints, to identify one for re-use Answer: D QUESTION 8Which of the following architectures in the Architecture Continuum contains the most re-usable architecture elements? A. Common Systems ArchitecturesB. Foundation ArchitecturesC. Industry ArchitecturesD. Organization-Specific Architectures Answer: B QUESTION 9Which of the following describes the Architecture Vision document? A. A description of individual change increments showing progression from the baseline to target architectureB. A detailed schedule for implementation of the target architectureC. A high level description of the baseline and target architecturesD. A joint agreement between the development team and sponsor on the deliverables and quality of an architectureE. A set of rules and guidelines to support fulfilling the mission of the organization Answer: C QUESTION 10According to TOGAF, which of the following best describes how the Enterprise Continuum is used in organizing and developing an architecture? A. It is used to coordinate with the other management frameworks in useB. It is used to describe how an architecture addresses stakeholder concernsC. It is used to identify and understand business requirementsD. It is used to provide a system for continuous monitoringE. It is used to structure re-usable architecture and solution assets Answer: E **!!!RECOMMEND!!!**
